Flavored by the Benevolent hand of an All Wise Providence, I am able to greet my many thousands of customers with this season's catalogue. My business last season was more than double that of the season before, thus demonstrating that people appreciate Good Seeds at Low Prices. When you consider that I can print and mail these catalogues at a cost of 2 cents each, while many of the large catalogues issued by other seedsmen costs 15 to 25 cents each, you will see the great saving effected and one reason why I can afford to sell cheaper than others; other reasons are I am content with a small profit — I do not pay exorbitant city rents, etc.

We Mail Postpaid all seeds quoted in this Catalogue, except those marked 'By Express.'

If you wish seeds sent by Express or Freight you may deduct what we would have to pay for postage, 10 cts. a quart; 6cts. for 1/4 pint; 2 cts. lb.; 20 cts. for 1/2 lb. Very small orders are usually cheapest by mail. Purchaser pays express charges.

We guarantee our seeds to be Fresh and True to Name to the extent that we will replace free any seeds which fail to grow through any fault of the seeds, or prove to be a variety different from what we sell them for.

We are Prompt. We fill and send orders within 48 hours from the time we receive them, except plants which often are not wanted until spring.

Send money with your order. If possible send a Post Office Money Order. We enclose blank application in each catalogue.

If you send 50 cents or over, deduct cost of order. Registered Letters and Express Orders are all right for remittance. Private checks must be made for 10 cents more than amount of order to cover exchange. Postage stamps and silver carefully wrapped is all right for small amounts.

Look over your order, see that your full address is plainly written and that you have enclosed the right amount.

Send the Addresses of any one who would be likely to send us an order if we sent them a catalogue, we will add something to your order to pay you. Get some one to sell our box and we will give you a present when they pay for it.

OUR BOX. Boys, girls and even grown people have for several years sold seed for us making good wages. One boy sold over 100 packages in his first half day. We put up and mail you 125 packets, our selection of best selling sorts, in attractive lithographed packets which you sell at 4 cents each and send us 2 cents a packet for all you sell. If you do not sell all mail the balance back remitting 2 cents each for all sold. Send us a recommend from your Pastor or Postmaster to say you are honest and we will mail box. We will sell the box outright for $2.00 cash with order. After selling a good portion of box you may remit for what are sold and order another box.

Plants. I do not grow these but have made arrangements with one of the largest and best firms in this state (Jackson & Perkins Co.) to fill all plant orders. All plants to be good mailing size, and, sent by mail in spring. They are all sent out in good condition but I do not replace any which fail to grow.

ROSES — I can supply nearly all varieties either for the house or out door culture at 10 cts. each; 6 for 25 cts. 6 for 45 cts.

CLEMATIS — Can supply Dutchess of Edinburgh, double white; Henryi, large single white; Jackmanii, large violet purple; Mine, Baron Veiller’s, lavender-pink; Mme. Desirable Plants

Good plants, mailed postpaid any time when not too cold.

ASPARAGUS SPIRENGERII (EMERALD FEATHER ASPARAGUS). This is undoubtedly conceded to be the handsomest and most valuable evergreen trailing plant for house or conservatory decoration. Makes a charming show as a vase, basket or window-box plant, and its beautiful sprays of lovely green feathery foliage grows rapidly and may be cut freely. A strong, vigorous grower requiring little care. Plants 15 cts. each; 3 for 35 cts.

ASPARAGUS, Pinnata (CLIMBING LACE FEATHER). Finer and more delicate than Sprengerii and nearly as graceful in growth. Its bright, feathery foliage is fine as the finest lace. The fronds retain their freshness for weeks when cut, and are greatly admired for floral decorations. For a graceful basket or window plant it has no superior. 15 cts. each; 3 for 35 cts. 2 above Asparagus plants 25 cts.

CYPHERUS or Umbrella Plant. A plant of easiest culture and a large specimen is nearly as handsome as a palm as handsome as a palm, being fine for basket, pot or vase. Grows luxuriantly in water and is therefore indispensable for aquariums and tanks. Rapid, hard grower does well with little care. Plants 10 cts. each; 3 for 25 cts.

IT IS A FACT that nearly 34 of the people in our country go to their storekeepers and pay 5 cts. a pkt. for old seeds. Now these seeds in commission boxes are on an average less than one fourth each season. The other three quarters are sent back to the seedsmen and returned as fresh seed the following year, and so on till they get—well no telling how old—at least too old to produce a strong, healthy plant. After allowing the merchant half for retailing, salesman’s expenses, etc., you can see that a seedman can only afford to use the cheapest seeds in commission boxes.
